

BUNGALOW CREEK

Community Plan

2013/2014

This Business plan will provide Bungalow Creek with a vision for the year 2013-2014 and will include identification of key issues, development of actions and priorities to achieve outcomes and the identification of costs and funding sources

The strategies and objectives developed in this plan have been formulated utilising the ideas and concerns of members of the community. To successfully achieve these objectives, it is critical that there is also significant community input and cooperation in the implementation of the Community Plan.

The Bungalow Creek Progress Association Inc. will encourage wide community involvement in the implementation of the Community Plan, regularly promote the successes of the community through regional media and ensure the community is well informed on services provision issues and their need to contribute to the provision of those services.

The strategies developed to achieve this specific objective are aimed at promoting a strong sense of community pride, increasing the general awareness of community activities and promoting community involvement in this plan.

IMPLEMENTATION

The Progress Association will continue to play an important role in the facilitation, implementation and monitoring of the actions that arise from the Business Plan for 2013/14. The Bungalow Creek Progress Association Inc. will have to work closely and effectively with State, Commonwealth Government Departments and community organisations to achieve the goals outlined in the plan.
